GOV. HUNT OUT FOR THE SENATE

Information Given Out By Source Close
to Chief Executive Is Con-
sidered Reliable

HOMER WOOD IS SLATED FOR GOVERNOR

A Phoenix dispatch says:—
From a source close to the governor and intimate with the affairs of state administration it was learned today that George W. P. Hunt will be a candidate for the United States senate against Mark A. Smith and Reese M. Ling.
This rumor has been extant in Phoenix for several days but until broached by the confidant of the governor was given little credence. It is also said that with the announcement of the governor's intention to shoot for the senatorship Homer Wood of Yavapai county will step into the ring for the governorship.
There are many reasons why Gov-
ernor Hunt should get into the race for the senate, according to those who favor his candidacy. In the first place they say, if either of the men now in the race succeed of election, a conservative democrat will hold down the position for the next six years. Hunt figures that he can carry the solid ranks of the radicals against either Smith or Ling.
It has been known for some months that Hunt's ambition was to represent Arizona in the upper halls of congress and that he was cultivating his political crop to this end. The candidacy of Homer Wood for the governorship, would be in the natural sequence of events.

ARIZONA NEWS OF INTEREST

Newsy Notes From All Over Arizona
Carefully Condensed for The
"Prospector" Readers

Arizona Cotton to Front

Advices have been received from Providence, R. I., that 67 bales of third grade Egyptian cotton, shipped by the Chandler Cotton Growers' exchange, were sold there for 19 cents a pound. The first and second grade cotton has not been sold yet and should bring more than 20 cents. Cotton will be grown on 3000 acres of land in the Yuma valley this season. Arrangements have been made by the Cotton Growers' exchange to secure seed from the Imperial valley at 32 cents a pound. According to figures gathered by the ranger of the reclamation service, 7278 1/2 acres in the Mesa district will be planted to Egyptian cotton this season. Last year the acreage was a little over 1000.

Arizona Cantaloupes

The Salt River valley cantaloupe crop will be at least 33 per cent heavier this year than last. In the Mesa section 1200 acres will be planted to the little ribbed melons, and between 500 and 600 carloads will be shipped. At Gilead 960 acres will be planted to cantaloupes and the shipments will be in the neighborhood of 480 cars. The entire crop has already been contracted for by Chicago, Pittsburg and New York commission houses. Shipping will begin about July 1.

Maintenance of Laterals

A plan for government maintenance of private irrigation laterals has been submitted to the Salt River Valley Water Users' association by the reclamation service. The plan provides for a quitclaim deed to each lateral, which must be supplied the government by the owner. The laterals will then be maintained by the government and the expense will be added to the maintenance cost of the project. It is believed that the government can eliminate many of the laterals now used and that the saving over the present system will be considerable.

Firebug Arrested

Charged with setting fire to the barn of John Grijalva, his neighbor at Sahuarita, Rafael Lopez was arrested by Sheriff John Nelson and taken to the Maricopa county jail. The barn was burned last Sunday evening. On account of the direction in which the wind was blowing it was possible to save the barn. The report is that there has been animosity between the two families. The elder Lopez was cited as a witness.

HAYDEN FAVORS SAN CARLOS DAM

Introduces Bill Providing
for Storage and
Development

\$6,311,983 IS LIMIT

A Washington dispatch says:—

Congressman Carl Hayden has introduced a bill in congress for an appropriation for the building of the San Carlos dam. The bill provides for the storage, diversion and development of water for the irrigation of approximately forty thousand acres of land on the Gila River Indian reservation and for the irrigation of approximately 55,000 acres of public and private lands in Pinal county. The limit of cost shall not exceed the sum of \$6,311,983.

VILLA NEARS TORREON

Desperate Fighting Takes
Place at Gomez
Palacio

MANY ARE WOUNDED

A Juarez dispatch says:—
A message, timed at 5 p. m., from Gomez Palacio, signed by Villa, said he had concentrated his army to force his way into Turreon, there to join Herrera and take supreme command. Officials here declare the Federals in Turreon are weakening.
GOMEZ PALACIO, March 27—
Four days of fighting, including three desperate assaults by rebels, were crowned today when Villa moved into the city and established headquarters on the side of the town nearest Turreon and within three miles of that goal.
The deciding assault was delivered yesterday. It was preceded by bombardment after which infantry and cavalry dashed into the streets. Rifles, machine guns, pistols and hand grenades were used in many different encounters in the narrow thoroughfares.
Villa does not yet know his own losses, except that they are heavy. The wounded suffered terribly from thirst. Many died for lack of water and surgical attention. Veterans say no more furious battle was ever fought in Mexico.

WRITE STORIES FOR MOVING PICTURE PLAYS

New, Spare-time Profession for Men
and Women--One Man Makes
\$3500 in Six Months

Owing to the large number of new motion picture theatres which are being opened throughout the country, there is offered to the men and women of today, a new profession, namely, that of writing moving picture plays. Producers are paying from \$25 to \$150 for each scenario accepted upon which they can build a photo play.

\$3500 in Six Months

As it only requires a few hours' time to construct a complete play, you can readily see the immense possibilities in this work. One man, who gave the idea a tryout, writes that he earned \$3500 in six months. It is possible for an intelligent person to meet with equal success.

One feature of the business which should appeal to everyone, is that the work may be done at home in spare time. No literary ability is required and women have as great an opportunity as men. Ideas for plots are constantly turning up, and may be put in scenario form and sold for a good price.

LACK OF CARE WILL RUIN THE MOST BEAUTIFUL HAIR

Save it With Herpicide

Aside from combing it when they think necessary many people give no attention whatever to their hair. Then when the hair begins to fall out it never occurs to them that their trouble is the result of personal carelessness.

An occasional application of Newbro's Herpicide will not only prevent loss of hair but permits a luxuriant growth. Hair loss is attributable to dandruff and the germ that causes it. The results following the intelligent use of Herpicide are frequently

of a surprising nature. It removes the scale like accumulations, leaving the scalp clean and free of dirt and thus allowing the hair to grow unhindered by dandruff.
Newbro's Herpicide in 50c and \$1.00 sizes is guaranteed to do all that is claimed. If you are not satisfied your money will be refunded.
Applications may be obtained at the leading barber shops.
E. R. FLACH,
Special Agent.
